1. Update on entries – Becky is still working with the on line guy. Saturday 528 entries, Sunday 514 entries. Becky working since Saturday on individual entries. It has been a big hassle and quite frustrating.  
Entries are pretty accurate so that we can get the stock off the numbers we have.  
We are talking about 12 hour performance considering all the entries.  
Becky will send out all entries to the states to go over their own states entries.  
Ashley would like to know the number of events we have in total to check awards.
2. Parking: we will need a team to help with parking trailers. Which board member can take this on? We will ask for others to volunteer. Also need to get stakes and tape to mark off sections. Becky explained that we need the water staked off. Kevin suggested a sign explaining how to park and how big the pens can be. We made the pen size 10x10. We need someone there for information. Tom will work on that on Friday.
3. Flea Market area use in the case of inclement weather for social, cowboy church? Kevin believes that the flea market can be used if the weather is bad. The social is canceled because there is no time
4. Music/sound system use? RJ will turn on the sound system, for our announcer.
